I am not up on the fact that it is possible with ESET. ESET is a reputable company and I am surprised that they do not offer subscription. It would be a good way to grow their customer base. They do have a really good 'trial' version of their product, so I am inclined to try it before buying a subscription. At least, this will keep me from being a constant target for malware. Maybe then I can convince some of my friends to buy it. I look forward to reviewing my experience with ESET. . Best Regards, Timothy email:timothymh @ MSN Hacker Hotmail adds:. The software then installed 10.7.0.0. It simply presented the license screen on first boot. Not sure how they will track the terms and conditions. I hope that you are not still on the subscription, or that there is a one time purchase for that license. My understanding is that if you install the software after the purchase then you will need to activate via subscription. Tim, or the community can provide further information. Which then drove me to ask for more information about activation via subscription - which some very helpful readers brought me.. Tim, or the community can provide further information. ESET will provide a monthly subscription to you. Your current subscription will not be renewed, nor will your contract automatically be converted to another subscription plan. You will be notified by email in May about the termination of your contract. You can check which subscription plans are available and contact us using a Support form. Step 4. This is a link to a support form for you to provide us with contact details so we can communicate about
