## **About This Game**

Hatred fills your whole body. You're sick and tired of humanity's worthless existence. The only thing that matters is your gun and the pure Armageddon that you want to unleash.

You will go out for a hunt, and you will clear the New York outskirts of all humans with cold blood. You will shoot, you will hurt, you will kill, and you will die. There are no rules, there is no compassion, no mercy, no point in going back. You are the lord of life and death now - and you have full control over the lives of worthless human scum.

You will also run, you will need to think, you will need to hide and fight back when armed forces come to take you down. You will have no mercy for them, because they dare to stand in your way.

Only brutality and destruction can cleanse this land. Only a killing spree will make you die spectacularly and go to hell.

crazy fun but very shocking not for kids. Awesome game, you play as an antisocial, environmentalist metalhead on a noble crusade to stop climate change and reduce the amount of CO2 in the atmosphere.. its a good fun game but it doesn't run very good on my computer. Sure, the theme is edgy.

And the story sucks.

But with all the drama this game caused upon release, nobody mentioned the most important thing.

## Summary:

Bought this game solely because it was a banned game at one point before it went AO rating. The AO rating holds true and is HIGHLY suggested that no one under 18 plays this game. The language is intense and the violence is through the roof. The objective of the game? Kill everyone for no reason. The terrorist that you could only dream of ever happening in a game. The story is pretty straightforward and the achievements are not too bad with a little bit of time invested in the game to accomplish. The difficulty is pretty tough. I was playing on normal and had a few hair pulling moments on the later levels. I cannot imagine this game on the hardest difficulty without labeling it masochistic. The current price of \$6.00 is fair to say to pay full price. The game is very short and aside from collecting achievements and challenges, there isn\u2019t much left to do within the game. It is a really good top down shooter, violent as hell, but fun for the mentally sane gamers. Again, HIGHLY suggested to be over 18.
